# **RACINE**

## Product Information & Data Sheet

Racine is a light-tone castle rock style real thin cut stone veneer. The veneer falls loosely into the castle rock style with primarily rectangular pieces. A few pieces showcase some irregularity in shape which adds to the character of the natural stone veneer. Racine is one of the few stone options we have where we can sort the colors to an extent. As shown in the application photos, the pieces can be requested to be lighter or darker depending on your design goals. Racine has a beautiful depth of color within the individual pieces that can only be achieved with natural stone.

#### Flats Dimensions

Heights: 2" - 12" Lengths: 4" - 18" Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Tones

Style: Castle Rock Finish: Natural

## **Corner Dimensions**

Heights: 2" - 8" Lengths: 3"-5" x 8"-12" Depths:  $\frac{3}{4}'' - 1 - \frac{1}{2}''$ 

Weight: 20 lb. per linear foot

Angle:

### **Packaging**

Flat Pallet: 150 square feet Corner Pallet: 50 linear feet

### **Applications**

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### https://quarrymill.com/shop/racine/

Natural stone varies in color, shape and veining from piece to piece. Photos used are meant to be as accurate as possible in depicting the product. Photos of stone are meant to give a general idea but should not be used for exact color matching.

#### **LEED® Certification & Energy Efficiency**

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.
