

OLYMPIA

Product Information & Data Sheet

Olympia is a semi-colorful natural stone veneer in the fieldledge style. We classify Olympia as semi-colorful because it has a good deal of variation and depth of color while still staying within the earth tones. Olympia has beautiful depth of color with multiple colors present within the individual pieces of stone. The veneer falls into the fieldledge category with linear and irregular pieces. This gives your mason a lot of flexibility over the final appearance. Olympia can be installed in a linear fashion using the larger irregular pieces as jumpers between courses or in a random mosaic pattern.

Flats Dimensions

Heights: 2" - 10"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 10"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Gold Tones, Grey

Tones, Natural Tones

Style: Fieldledge

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
