

HURON

Product Information & Data Sheet

Huron is a mosaic style natural thin limestone veneer with a tumbled finish. The veneer exclusively shows the bedfaces of the dolomitic limestone. The bedfaces naturally have some color due to the minerals between the layers staining the stone over time. The stone itself is more of an off-white or creamy buff tone. The tumbling process rubs and chips off parts of the mineral-stained outer layer exposing the raw white stone underneath. Upon closer inspection of the stone, it almost appears as if the soft golds and greys are embedded in the stone giving Huron a great depth of color.

Flats Dimensions

Heights: 4" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"
Lengths: 3"-5" x 6"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Natural Tones
Style: Mosaic
Finish: Tumbled

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
