

# LOGAN

## Product Information & Data Sheet

Logan natural stone veneer is cut from premium North American quarried granite. The majority of the natural veneer blend is blue and grey with an occasional gold or earthy brown piece to add a splash of color. Logan shows both the split face (interior part) and bedface (top and bottom) of the slabs of natural granite. The natural thin veneer is an ashlar style stone and shown here with a half-inch raked mortar joint between the pieces. Ashlar is our most common and best-selling stone style. Logan can also be drystacked as shown in the application photos. Drystacking is a tight-fit mortarless application and will require field trimming on-site by your mason.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:

We have resources to help with everything from mortar joint selection to a full PDF install guide.

### Flats Dimensions

Heights: 2" - 8"  
Lengths: 4" - 18"  
Depths:  $\frac{3}{4}$ " - 1 $\frac{1}{2}$ "  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths:  $\frac{3}{4}$ " - 1 $\frac{1}{2}$ "  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Grey Tones, Natural Tones, Sky Tones  
Style: Ashlar  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
