

# NOTTINGHAM

## Product Information & Data Sheet

Nottingham is a tumbled fieldledge style natural thin stone veneer. It embodies the old-world look and feel that can only be accomplished with tumbled stone.

The veneer is cut from natural limestone with soft gold and blue tones.

Nottingham's gold and blue tones are on the surface and come from the raw stone being stained by minerals as rainwater seeped through the ground over the years. The raw limestone, however, is more of a neutral white or grey tone and this is brought out by the tumbling process. As the stones turn and bash against each other, the outer layer is chipped or worn off in places exposing the inner unadulterated limestone. The mix of natural colors and tumbling creates a beautiful subdued old-world natural thin stone veneer.

### Flats Dimensions

Heights: 2" - 10"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 10"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Gold Tones, Grey Tones, Natural Tones, Sky Tones

Style: Fieldledge

Finish: Tumbled

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
