

CONCORD

Product Information & Data Sheet

Concord is a mosaic style natural granite thin stone veneer. The individual pieces of stone showcase irregular and random shapes characteristic of the mosaic style. The colors are a beautiful mix of blues, greys, and blacks. Concord shows both the split face and bedface of the natural stone slabs but the pieces have not been processed by our machines. The veneer is cut from the pieces of stone that fracture as a result of the quarrying process. The irregular shaped pieces that are suitable for the saw are collected and cut into thin veneer. The reduced processing is reflected in the price point making Concord one of our most affordable premium natural stone veneer options.

Flats Dimensions

Heights: 4" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Stone Characteristics

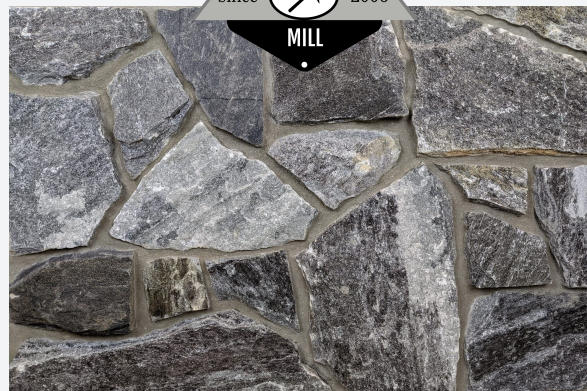

Colors: Grey Tones, Sky Tones
Style: Mosaic
Finish: Natural

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
