

MATTERHORN

Product Information & Data Sheet

Matterhorn is a tumbled mosaic style natural thin granite veneer. The irregular pieces fall into the mosaic style and form a spider web like pattern once installed. The finished veneer is cut from fractured pieces of natural granite. The term fracture, in this case, is just as it sounds; the fractured pieces break off from the slabs in the quarrying process. The pieces suitable for Matterhorn are collected and put through the tumbler. Tumbling gives the stone a worn or older and more antiqued look. Lastly, the pieces are sawn in 1.25" thick veneer. The edges of the pieces are all natural. They have not been split nor sawn.

Flats Dimensions

Heights: 4" - 12"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"

Lengths: 3"-5" x 6"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Grey Tones, Sky Tones

Style: Mosaic

Finish: Tumbled

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
