

ASTORIA

Product Information & Data Sheet

Astoria thin stone veneer is a blend of beautiful natural granites. The natural stone showcases granites from two different quarries which create a unique color combination. Astoria is a top-of-the-line stone as the granites are some of the hardest we work with. Due to the hardness of the stone, the pieces take almost twice as long to saw compared to some of our other veneers.

Astoria showcases multiple faces of the natural stone. The larger rectangular blue and grey pieces show the bedfaces (outer parts of the quarried slabs), whereas, the smaller more linear blue and grey pieces show the interior or split face of the stone. The pink tones round out the blend to create the final product.

Flats Dimensions

Heights: 2" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Copper Tones, Gold Tones, Grey
Tones, Sky Tones
Style: Castle Rock
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
