

CARPATHIAN

Product Information & Data Sheet

Carpathian is a rustic irregular natural stone veneer in the mosaic style. The finished veneer consists of irregular pieces in a full range of earth tones. The veneer is a blend of quarried stones and hand-picked fieldstones. Both the quarried stones and fieldstones come from the same raw stone. The fieldstones are the pieces that are found on the top layer of the bedrock; they were pushed up through the topsoil by the frost over the course of many years. The loose fieldstone pieces appear in the farm fields every spring and are hand-picked and removed for better farming and to create thin stone veneer. The fieldstones are blended with the quarried stones to create Carpathian.

Flats Dimensions

Heights: 4" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"
Lengths: 3"-5" x 6"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey Tones
Style: Mosaic
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
