

# ANNAPURNA

## Product Information & Data Sheet

Annapurna is an ashlar-style real stone veneer showcasing a blend of natural quarried stones and hand-picked fieldstones. Blending the two types of stones adds variation in color and texture to the stone application. The range of earth tones and classic ashlar style make Annapurna a versatile design option.

The quarried stones are shown in both bedface and splitface pieces. The bedface pieces bring the golds and tans from the natural mineral staining, whereas, the splitface pieces add the neutral greys. The splitface pieces are a more monochromatic grey as they show the raw interior part of the stone slabs. The fieldstone pieces provide the darker brown earth tones from the exposure to the topsoil and elements over the years.

### Flats Dimensions

Heights: 2" - 8"  
Lengths: 4" - 18"  
Depths: ¾" - 1½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey Tones  
Style: Ashlar  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
