

BALKAN

Product Information & Data Sheet

Balkan is a natural thin cut limestone veneer with stunning dark tones. The veneer is a mix of the different faces or parts of the quarried limestone. The familiar and warm gold tones of the outer parts of the limestone slabs contrast beautifully against the uniquely dark interior of the stone. Balkan falls loosely into the castle rock or square rec style due to the split rectangular pieces, however, the individual pieces are slightly smaller than most of our other castle rock options. This stone blends nicely with some of our other products to provide a less formal and old-world look. Our sales team is happy to work with you to create a custom blend.

Flats Dimensions

Heights: 2" - 12"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Gold Tones, Grey Tones

Style: Castle Rock

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
