

DUTCH HARBOR

Product Information & Data Sheet

Dutch Harbor is a thin cut low height ledgerstone veneer in natural earth tones. The stone is a blend we make in house from quarried and hand-picked fieldstones. The quarried stones contribute the tans and greys. The tans are the outer part or bedface of the stone slabs. The greys are the interior part of the stone that has been split or chopped with a hydraulic press. The fieldstones contribute the darkest and richest browns as they have been exposed to the elements for centuries. By blending the stones and colors, Dutch Harbor creates a visual appeal that could not be achieved by each stone individually.

Flats Dimensions

Heights: 1" - 5"
Lengths: 4" - 12"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 1" - 5"
Lengths: 3"-5" x 6"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey Tones
Style: Ledgerstone
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
