

# SYDNEY

## Product Information & Data Sheet

Sydney is the embodiment of modern design in a natural stone veneer. The stone has a distinguishable aesthetic that emphasizes crisp lines, warm neutrals, and balance. Sydney has a relatively simple color palette and compliments other siding options such as metal, glass, and steel. The set heights of the individual pieces of stone make them fit together perfectly to create a sleek and modern look. Sydney is sometimes referred to as a contemporary style stone as the modern and contemporary styles are frequently used interchangeably. However, contemporary style is different from modern in that it describes design based on the here and now rather than an era that has passed.

### Flats Dimensions

Heights: 2- $\frac{1}{4}$ " , 5" , 7- $\frac{3}{4}$ "  
Lengths: 4" - 16"  
Depths:  $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
