

MALHEUR

Product Information & Data Sheet

Malheur is a dark castle rock style natural quartzite thin stone veneer. The stone has a full range of gray tones that provide beautiful contrast while still remaining subtle. Malheur's bedface pieces have stunning variations ranging from unique swirling to light streaks. Overall, the pieces have an understated depth of color only available in natural stone which creates more interest than a flat gray stone. Malheur has large rectangular castle rock pieces great for large-scale projects. Although Malheur is striking on its own, consider blending Malheur with Wyndemere to add some color to your project. Both Malheur and Wyndemere have a similar geographical origin and complement one another beautifully.

Flats Dimensions

Heights: 2" - 12"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Grey Tones

Style: Castle Rock

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
