

VAIL

Product Information & Data Sheet

Vail is natural thin cut sandstone with an earthy variety of colors and textures. The stone pieces are all hand-picked fieldstone. Fieldstone, in this sense, is the top layer of the quarry. Vail's stones are the pieces that have separated from the bedrock and have been pushed up through the soil layers by frost over the years. Some of the pieces of stone are manually pulled from the dirt and other pieces have been exposed to the sun for years creating stunning variation. Vail is subject to heavy variation with no two production runs being the same; this adds one-of-a-kind uniqueness. It is best to check with us for information on the current batch before ordering.

Flats Dimensions

Heights: 2" - 8"

Lengths: 4" - 18"

Depths: ¾" - 1½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Earthy Browns, Gold Tones

Style: Ashlar

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
