

# RUSHMORE

## Product Information & Data Sheet

Rushmore is a rare quartzite dimensional style natural thin stone veneer. The stone has the unmistakable soft shimmer from the sparkles of the quartz. Rushmore is rare due to the nature of quartzite which does not typically lend itself to being cut into the dimensional style. Rushmore is our only quartzite real stone veneer in the dimensional style. The dimensional or sawed height style is mainly cut from limestone due to the excavation of large blocks of the stone. Rushmore has a semi-consistent range of grays with a great depth of color within the individual pieces. Some pieces have soft variations while others have darker streaks running through them. This is a premium thin stone we import from overseas. We have pallets in stock and ready for immediate shipment.
