

AUGUSTINE

Product Information & Data Sheet

Augustine is a beautiful tumbled fieldledge style natural thin-cut sandstone veneer. The stone is predominantly tan and light brown with an occasional very dark or light piece. The textures are smooth and soft as a result of the tumbling process.

Augustine has a mix of the different faces of the sandstone slabs. The larger irregular pieces are the tops and bottoms of the slabs, whereas, the linear pieces are the edges of the slabs. Augustine showcases the outer faces of the stone that have great variation as opposed to the more monochromatic interior. The irregular mosaic pieces have a split back while the linear pieces have a sawn back. This will have no impact on the installation or final appearance.

Flats Dimensions

Heights: 2" - 10"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

Stone Characteristics

Colors: Earthy Browns, Gold Tones

Style: Fieldledge

Finish: Tumbled

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
