

MOAB

Product Information & Data Sheet

Moab is a quintessential red tone natural sandstone veneer. The stone falls more broadly into the copper tones category with reds, light oranges, and hints of brown and tan. Moab is an extremely hard and dense sandstone cut into rough rectangles to form the castle rock style. Although relatively monochromatic, the stone has a beautiful depth of color that is showcased by variation within the individual pieces. Moab is a versatile stone; it can add rustic elements to a mountain retreat or complement red brick on a modern suburban home. The stone is relatively smooth to the touch with some pieces having a sandpaper like texture.

Flats Dimensions

Heights: 2" - 12"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Copper Tones,

Earthy Browns

Style: Castle Rock

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
