

FREEPORT

Product Information & Data Sheet

Freeport is a natural old-world granite thin stone veneer in the fieldledge style. The blend of linear and irregular pieces takes you back to a time before the stone industry began to cut and shape stone with diamond saws and hydraulic presses. Freeport shows the snapped or fractured face of the granite. The finished veneer gives beautiful color variation with shades of gray, salt and pepper, soft black, gold, and tan. Freeport is a blend made in-house and we are able to alter the percentage of colors to fit your design. We can accommodate requests with no black pieces or all black pieces and anything in between.

Flats Dimensions

Heights: 2" - 10"
Lengths: 4" - 18"
Depths: 3/4" - 1-1/2"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 10"
Lengths: 3"-5" x 8"-12"
Depths: 3/4" - 1-1/2"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Gold Tones, Grey Tones, Natural Tones
Style: Fieldledge
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
