

LEWES

Product Information & Data Sheet

Lewes is a timeless mosaic style real thin cut limestone veneer. The edges of the pieces of stone are completely unaltered. The pieces showcase the natural break that occurs during excavation from the quarry with no sawed or split edges. The only fabrication process Lewes goes through is the sawing process to create the approximately 1" thick thin veneer. Due to the limited fabrication and labor, Lewes is one of the most cost-effective premium stone options on the market. Lewes has a quintessential historic appearance that takes you back to a time before the advent of modern stone equipment. In the hands of a skilled mason, the finished application of Lewes makes you marvel at how well the irregular pieces come together.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:

Flats Dimensions

Heights: 4" - 12"
Lengths: 4" - 18"
Depths: $\frac{3}{4}$ " - 1 $\frac{1}{2}$ "
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"
Lengths: 3"-5" x 6"-12"
Depths: $\frac{3}{4}$ " - 1 $\frac{1}{2}$ "
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Gold Tones, Grey Tones, Natural Tones
Style: Mosaic
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
