BAILEYS HARBOR

Product Information & Data Sheet

Baileys Harbor is a classic and timeless split face real limestone veneer. The stone has a soft color palette of light gold tones with some unique blue and gray veining within the individual pieces. Baileys Harbor falls loosely into the ashlar style but has smaller heights with some pieces that could be categorized in the ledgestone style.

Baileys Harbor is a split face limestone. Split face is a masonry term referring to machine cut natural stone showing the interior part of the stone slabs. The split face or machine cut style is arguably the most popular choice for natural thin veneer. Baileys Harbor is one of our most cost-effective natural stone veneers offering an unbeatable value for a premium product.
