

CARRINGTON

Product Information & Data Sheet

Carrington is a split face real limestone veneer with unique blue veining. The stone is a limited supply product that we cut in batches. As we split the limestone slabs to create our Empire product, we occasionally run into darker veins within the quarry where the stone has some shades of blue. We hand sort and set the darker blue pieces aside until we have enough to do a production run of Carrington. Carrington is a local Door County favorite and is available for a limited time. The stone can stand alone or be blended with Baileys Harbor and/or Sunset Point for the classic Door County look.

Flats Dimensions

Heights: 2" - 8"

Lengths: 4" - 18"

Depths: 3/4" - 1 1/2"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Grey Tones, Sky Tones

Style: Ashlar

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
