

BAR HARBOR

Product Information & Data Sheet

Bar Harbor is a very dark natural quartzite thin stone veneer. The stone splits cleanly which allows for larger rectangular pieces characteristic of the castle rock style. Bar Harbor is the darkest stone option we offer as well as one of the darkest stones we have seen available anywhere in the world. Although not truly black, Bar Harbor has very dark gray tones with natural variation. Some of our stone options have some darker pieces but Bar Harbor is relatively consistent in its dark tones. Bar Harbor is a natural back product. The natural back will have no impact on the installation or final appearance. This is an imported premium natural stone veneer that we have in stock and ready to ship.

Flats Dimensions

Heights: 2" - 12"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Grey Tones

Style: Castle Rock

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
