

# COLLIER

## Product Information & Data Sheet

Collier is a natural white granite thin veneer with elegant graining and texture. The veneer is a dimensional ledgerstone sawed to heights of 2", 4", and 6" with random lengths. Collier is cut specifically to be drystack also known as a tight fit or mortarless installation. The stone showcases the quintessential beauty of natural granite. Collier is predominantly white with some gray speckles. There are also some occasional hints of tan or light gold due to the natural veining within the stone. Collier is one of a few white dimensional ledgerstones available and is great for modern design.

This product has limited availability. Please call for the available quantity before placing an order.

### Flats Dimensions
