

PORT ROYAL

Product Information & Data Sheet

Port Royal is a dynamic blue and gray natural thin cut limestone veneer. The pieces are cut to consistent four-inch heights with random lengths. Port Royal shows the split face or interior part of the stone exposed by breaking it with a hydraulic press. The stone has intense nonlinear white veining throughout which provides a sense of movement to the finished wall. Port Royal can be installed with or without a mortar joint between the pieces. Our mock-up shows the stone installed with a drystack, tight fit, or mortarless application. Port Royal is a dimensional ledgerstone well suited for both contemporary and transitional designs. This stone is in stock in 100 square foot pallets and ready to ship today.

Flats Dimensions

Heights: 1" - 6"
Lengths: 4" - 12"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 1" - 6"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Grey Tones, Natural Tones, Sky Tones
Style: Dimensional Ledgerstone
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
