

# AMALFI

## Product Information & Data Sheet

Amalfi is a unique light pink thin cut natural limestone veneer. The rare light pink color of Amalfi comes from a special vein within the quarry. The color is considered light pink or blush with some gold swirls or veining. Amalfi is cut into standard and consistent 12" x 24" panels with a thickness of 1".

When Amalfi is quarried, the stone comes out of the ground in blocks resembling the size of a small car. The large blocks are cut into the required sizes for the panels with a diamond wire or rope saw. Custom sizes as well as corners are available by request for an additional charge. Amalfi is produced from the same quarry as our Manchester stone.

---

### Flats Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "

Lengths: 4" - 16"

Depths:  $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "

Weight: 13 - 15 lb. per square foot

### Stone Characteristics

Colors: Copper Tones, Gold Tones

Style: Dimensional

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
