

# ATHERTON

## Product Information & Data Sheet

Atherton is a sleek and modern dimensional ledgestone style natural thin limestone veneer. The individual pieces of stone are sawed to heights of 2", 4", and 6". The stone is cut specifically for a dystack or tightfit mortarless installation.

Atherton is a designer-curated blend comprising pieces from multiple limestone quarries. By mixing the different limestones, Atherton achieves beautiful color variation while remaining subtle. Atherton is perfect for modern and transitional designs with its straight edges and clean lines. If your project is an exterior application with a freeze/thaw, we can cut the pieces to sizes of 2.25", 5", and 7.75" so a half-inch mortar joint can be used.

### Flats Dimensions

Heights: 1" - 6"  
Lengths: 4" - 12"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 1" - 6"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Gold Tones, Grey Tones, Natural Tones  
Style: Dimensional Ledgestone  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
