

# ACADIA

## Product Information & Data Sheet

Acadia is a dimensional ledgerstone natural thin veneer with natural and sky tones. The stone pieces have sawn edges and are 1"-6" in height. Acadia is a popular choice for modern and contemporary design aesthetics. This natural stone veneer is most commonly used on smaller-scale walls due to the smaller heights of the pieces. Acadia works great for interior applications.

The stone is shown with a standard half-inch grey raked mortar joint between the pieces. This is the most common installation method, however, other joint options and mortar colors can be used. The smaller heights and sawn edges of Acadia make drystacking (a tightfit, mortarless joint) a viable and common option.

### Flats Dimensions

Heights: 1" - 6"  
Lengths: 4" - 12"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 1" - 6"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Natural Tones, Sky Tones  
Style: Dimensional Ledgerstone  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
