

# ALPINE

## Product Information & Data Sheet

Alpine is a dimensional style stone known for its unique true white color. It is uncommon to get such a clean white tone as natural stone typically has some mineral staining. Alpine does not have mineral staining as it comes from one of the deepest quarrying operations we have at 60-80 feet down. At that depth the limestone is unadulterated. This thin stone has a natural split face made using a hydraulic press. Alpine is shown with heights of 2.25", 5" and 7.75". For very large projects we can also add 10.5" and 14.25" heights if desired. The stone is cut specifically for a half inch mortar joint and shown with standard grey mortar. Alpine will install quickly due to the set sizes and consistent heights.

### Flats Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "

Lengths: 4" - 16"

Depths:  $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "

Lengths: 3"-5" x 8"-12"

Depths:  $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "

Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Natural Tones

Style: Dimensional

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
