

ALPINE

Product Information & Data Sheet

Alpine is a true white dimensional style natural limestone veneer. The stone has a unique true white color with no mineral staining as it comes from one of the deepest quarrying operations at 60-80 feet in depth. At this depth, the limestone is unadulterated which is uncommon as most natural stones have some mineral staining. Alpine has set heights of 2.25", 5", and 7.75".

Alpine has a natural split face showing the interior part of the stone. The split face is made using a hydraulic press. The stone is cut specifically for a half-inch mortar joint. It is shown with standard grey mortar but white mortar is also a common choice. Installation of Alpine will be quicker than some of our other stones due to its dimensional style with set sizes and consistent heights. For very large projects, 10.5" and 14.25" heights can be added for an additional cost.

Flats Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "
Lengths: 4" - 16"
Depths: $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "
Lengths: 3"-5" x 8"-12"
Depths: $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Natural Tones
Style: Dimensional
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

Natural stone varies in color, shape and veining from piece to piece. Photos used are meant to be as accurate as possible in depicting the product. Photos of stone are meant to give a general idea but should not be used for exact color matching.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
