

ALEXANDRIA

Product Information & Data Sheet

Alexandria is a low height ledgerstone. The stones range from approximately 1"-5" in height and are laid in a linear pattern. The individual pieces of stone provide a rustic yet contemporary look. The pieces have a unique speckled appearance and naturally rough texture. Alexandria showcases the interior part of the stone and has been split with a hydraulic press. The colors vary from whites and tans to the occasional brown. Alexandria can be installed with the standard half inch mortar joint (shown) or the pieces can be drystacked (tight fit installation). With a drystack installation you can expect both the mason's cost and waste factor (due to fitting the stones together) to increase substantially.

Flats Dimensions

Heights: 1" - 5"
Lengths: 4" - 12"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 1" - 5"
Lengths: 3"-5" x 6"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Gold Tones, Grey Tones, Natural Tones
Style: Ledgerstone
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
