

# ARDENNES

## Product Information & Data Sheet

Ardennes is a natural hand-picked fieldstone in the fieldledge style. The stone has soft sandy textures, predominant brown tones, and a full range of white to black tones. The smaller linear pieces are broken up with larger mosaic-style pieces or jumpers. Due to the range of sizes, Ardennes works great for both large- and small-scale walls.

The stone is shown with a standard half-inch grey raked mortar joint between the individual pieces. This is the most common installation method, however, other joint options and mortar colors can be used. Although it is not easily noticeable once the product is installed, there will be some sawn edges on the smaller pieces of stone due to the production process.

### Flats Dimensions

Heights: 2" - 10"  
Lengths: 4" - 18"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 10"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Earthy Browns  
Style: Fieldledge  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
