

# APPALACHIAN LEDGE

## Product Information & Data Sheet

Appalachian Ledge showcases a beautiful range of sparkling colors including silver, copper, and bronze. The stone is a dimensional ledgerstone that is great for modern and contemporary design. This natural stone veneer is most commonly used on smaller scale walls due to the shorter heights of the pieces. The individual stone pieces have a sawn top and bottom in three specified heights. The stone is shown with a standard half-inch grey raked mortar joint between the individual pieces. Due to the set heights, this stone is not intended to be drystacked. Appalachian Ledge is unique as it is one of the few dimensional ledgerstones that uses a mortar joint.

NOTE: 90 degree corners are not available, on the corners overlap and interlock the flat pieces. This is a closeout product with only 600 square feet left.

**Flats Dimensions**  
Heights: 1" - 6"  
Lengths: 4" - 12"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Stone Characteristics

Colors: Earthy Browns, Natural Tones  
Style: Dimensional Ledgerstone  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
