

# BODIAM

## Product Information & Data Sheet

Bodiam is a natural castle rock style real stone veneer in predominantly grey tones. The stone has a subtle touch or splash of color but maintains a largely neutral feel. The slight color variations in Bodiam are determined by mother nature and are what makes natural stone so unique. Although Bodiam appears grey from a distance, closer inspection reveals the many muted colors within the stone. Bodiam has very flat faces that are smooth in terms of stone with the texture resembling fine sandpaper. If desired and installed correctly, this is one of the few natural stone veneers that can be used for a patio surface without any modifications. On a horizontal surface, the stone should be installed over concrete.

### Flats Dimensions

Heights: 2" - 12"  
Lengths: 4" - 18"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Grey Tones  
Style: Castle Rock  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
