

CALISTOGA

Product Information & Data Sheet

Calistoga is a colorful castle rock style natural stone veneer with a tumbled finish. The stone is cut from sheets of natural quarried stone and showcases only the bedfaces. The bedfaces are the tops and bottoms of the natural stone slabs. For reference, the flat surface of an active quarry that you walk on and drive across is referred to as the bed. Calistoga has some eye-catching color variation from the changes in mineral composition between the layers of the stone. Each piece of Calistoga has been machine split on all four sides to create the rectangles. The resulting sharp edges get rounded off in the tumbling process.

Flats Dimensions

Heights: 2" - 12"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Copper Tones,
Earthy Browns, Gold Tones
Style: Castle Rock
Finish: Tumbled

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
