

ARCTIC

Product Information & Data Sheet

Arctic is a mosaic-style real stone veneer with a beautiful depth of color. The thin stone has shades of blue, grey, and brown. Unique to Arctic, shades of all three colors can be found within an individual piece of stone. The texture of Arctic can be described as pimpled, gator-skin, wavy, or a combination of the three textures.

The natural sandstone quarry from which Arctic is unearthed does not have as many well-defined layers as some of our other sandstone quarries. This inconsistency in the layers of stone leads to variations in the colors and texture, providing Arctic with its unique character.

Flats Dimensions

Heights: 4" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"
Lengths: 3"-5" x 6"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Sky Tones
Style: Mosaic
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

Natural stone varies in color, shape and veining from piece to piece. Photos used are meant to be as accurate as possible in depicting the product. Photos of stone are meant to give a general idea but should not be used for exact color matching.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
