

CANYON DUSK

Product Information & Data Sheet

Canyon Dusk real stone veneer is a natural Wisconsin quarried weathered edge limestone. The weathered edge or seamface stone comes from the natural cracks or fissures in the ground that have been subjected to erosion. Canyon dusk has some unique textures that aren't seen in our other natural stone veneers. The thin stone has grooves from the natural stratification created by the layers of the quarry. Canyon Dusk is hand selected to showcase a range of red tones ranging from orange to lavender. This stone comes in a natural blend of unaltered sizes which creates an ashlar pattern.

Flats Dimensions

Heights: 2" - 8"
Lengths: 4" - 18"
Depths: ¾" - 1½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Copper Tones
Style: Ashlar
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
