

# AVALON

## Product Information & Data Sheet

Avalon is a low-height natural thin bluestone veneer with a tumbled finish. The stone is naturally straight. It has a natural top and bottom and is not sawn to specified heights. Avalon mainly consists of shades of grey/soft blue and gunmetal with an occasional lavender or "lilac" colored piece. Avalon's texture is about as silky smooth as you can get with a real stone veneer. The edges are rounded more than most of our tumbled natural stone options. This style comes from the smaller pieces of stone being finished in a vibratory tumbler with fine gravel as opposed to our larger drum tumbler that we use on our other tumbled natural stone veneers.

### Flats Dimensions

Heights: 1" - 5"  
Lengths: 4" - 12"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 1" - 5"  
Lengths: 3"-5" x 6"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Copper Tones,  
Natural Tones, Sky Tones  
Style: Ledgerstone  
Finish: Tumbled

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
