CARDINAL BAY
Product Information & Data Sheet

Cardinal Bay is a bold and eye-catching natural thin stone veneer in shades of red. The individual pieces of real stone vary from light orange to almost purple. The stone is a relatively new product for us and our mockup shows the stone in its completely natural state. We classified Cardinal Bay as a fieldledge; the pieces are not linear enough to be considered ashlar but are too linear to fall into the mosaic style. The rough and semi-irregular stones of Cardinal Bay provide a look akin to centuries-old farmhouses. This style of stone and farmhouse design has been making a comeback and features one-of-a-kind design elements.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:

We have resources to help with everything from mortar joint selection to a full PDF install guide.

Flats Dimensions

Heights: 2″ - 10″
Lengths: 4″ - 18″
Depths: ¾″ - 1-½″
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2″ - 10″
Lengths: 3″-5″ x 8″-12″
Depths: ¾″ - 1-½″
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Copper Tones
Style: Fieldledge
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
