

# CHESAPEAKE

## Product Information & Data Sheet

Chesapeake natural stone veneer provides a rustic New England feel in a ledgerstone style. The colors consist of beiges, blacks, blues and shades of grey. Chesapeake has naturally rough and rugged textures well suited for exterior applications. The individual pieces range in height from approximately 1"-5" and are laid in a linear pattern for a contemporary look. Chesapeake can be installed with the standard half inch mortar joint (shown) or the pieces can be drystack (tight fit installation). With a drystack installation you can expect both the mason's cost and waste factor (due to fitting the stones together) to increase substantially.

### Flats Dimensions

Heights: 1" - 5"  
Lengths: 4" - 12"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 1" - 5"  
Lengths: 3"-5" x 6"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey Tones  
Style: Ledgerstone  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
