

CYPRESS LAKE

Product Information & Data Sheet

Cypress Lake is a custom blend of natural thin quartzitic sandstones. Our custom blend of stones adds beautiful variation to the finished product. Although our quarrying locations for Cypress Lake are only miles apart, the differences in the stones are quite drastic. Cypress Lake stones are all extremely hard and dense quartzite with the color variations coming from the differences within the mineral composition at each excavation site. The first site is not a quarry in the traditional sense as the stone from this site is literally being pulled from the side of a mountain. This location has higher iron content giving Cypress Lake the greys, tans, and rust tones. The second location is a true quarry where the stone is excavated from below the ground giving the more consistent soft brown tones.

Flats Dimensions

Heights: 2" - 8"
Lengths: 4" - 18"
Depths: ¾" - 1½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey Tones
Style: Ashlar
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

Natural stone varies in color, shape and veining from piece to piece. Photos used are meant to be as accurate as possible in depicting the product. Photos of stone are meant to give a general idea but should not be used for exact color matching.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
