

BUCKINGHAM

Product Information & Data Sheet

Buckingham is a sawed height natural stone veneer with cool and soft tones. The stone has shades of grey, white, and blue with an occasional hint of earthy brown. There can be multiple colors within each individual piece of stone. Buckingham has a unique natural swirling texture that makes this stone a popular choice. The range of color and texture is sometimes called movement within the design industry because the stone looks to be moving on its own. The more formal sawed heights of Buckingham contrast the color and texture variation of the stone. Buckingham is a premium quality sandstone quarried and cut in the USA.

Flats Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "
Lengths: 4" - 16"
Depths: $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "
Lengths: 3"-5" x 8"-12"
Depths: $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
Weight: 20 lb. per linear foot

Stone Characteristics

Colors: Grey Tones, Natural Tones, Sky Tones
Style: Dimensional
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
