

# BUCKINGHAM

## Product Information & Data Sheet

Buckingham is a sawed height natural stone veneer with cool and soft tones. The stone has shades of grey, white, and blue with an occasional hint of earthy brown. There can be multiple colors within each piece of stone. Buckingham has a unique natural swirling texture that makes this stone a popular choice.

In the design industry, Buckingham's range of textures is called "movement within the stone" because the natural stone appears to be moving on its own. The more formal sawed heights of Buckingham contrast with the color and texture variation of the stone. Buckingham is a premium quality sandstone quarried and cut in the USA.

### Flats Dimensions

Heights: 2-¼", 5", 7-¾"  
Lengths: 4" - 16"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2-¼", 5", 7-¾"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Grey Tones, Natural Tones, Sky Tones  
Style: Dimensional  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
