

EPHRAIM

Product Information & Data Sheet

Ephraim is a premium weathered edge limestone veneer in soft warm tones. The stone is 100% weathered edge or seamface. Weathered edge stone is semi-rare as it is only produced from the edges of the limestone slabs that were exposed via cracks or fissures in the ground. Being a seamface stone, Ephraim presents a great range of textures with some stratification. The stone is predominantly gold with a depth of color showcasing some soft browns and lavender tones. Between Ephraim's color and texture range, it is a bold weathered edge limestone. The veneer has linear pieces great for creating the classic 2:1 random ashlar pattern.

Flats Dimensions

Heights: 2" - 8"
Lengths: 4" - 18"
Depths: ¾" - 1½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Copper Tones, Earthy Browns, Gold Tones
Style: Ashlar
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
