

# HIGHLANDER

## Product Information & Data Sheet

Highlander is rustic brown and tan real stone veneer cut from natural rocky mountain quartzite. The stone pieces have rich dark brown tones with a soft and sandy texture. Highlander is quarried from the top layer of stone and can occasionally have moss or lichen on the pieces. The natural moss is a beautiful rustic feature unique to natural stone. The individual pieces of stone form a rough ashlar pattern but can be installed in a more irregular fashion if desired. This natural stone is unusually hard and dense making it well suited for exterior applications even in the harshest climates. This product is currently on backorder.

### Flats Dimensions

Heights: 2" - 8"

Lengths: 4" - 18"

Depths: ¾" - 1½"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Earthy Browns

Style: Ashlar

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
