

MARICOPA

Product Information & Data Sheet

Maricopa real stone veneer is a colorful natural limestone in a mosaic pattern. The unique range of color sets this stone apart from our other natural stone veneer options. The colors include: reds, lavenders, tans, greys, and hints of blue. The coloring of the stone comes from the natural mineral staining between the layers of stone. Maricopa is a natural back product; it has not been sawn with a diamond blade on the back. This will have no impact on the installation. Maricopa is created from the layers of the quarry that are naturally 1" thick. Due to the nature of the colorful product, it is subject to heavy variation.

Flats Dimensions

Heights: 4" - 12"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"

Lengths: 3"-5" x 6"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Copper Tones, Gold Tones, Grey Tones

Style: Mosaic

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
