

MARIETTA

Product Information & Data Sheet

Marietta is a colorful castle rock style real thin stone veneer. The stone is comprised of all rectangular shapes. Castle rock stone is also referred to as square-rec or square-rectangular. When compared to our other products, Marietta has some of the largest individual pieces of stone. The large pieces make this product a great choice for large scale walls. As your mason installs the stone, you will see the strong character and fortress-like feel of Marietta come out. The stones have a broad mix of colors ranging from the more neutral greys and blacks to oranges, and even a hint of pink. The textures are primarily smooth with occasional rippling.

Flats Dimensions

Heights: 2" - 12"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation
