

# MONTREUX

## Product Information & Data Sheet

Montreux is a true white tumbled dimensional natural thin stone veneer. Natural stone is not typically a true white but more of a buff or eggshell tone due to mineral composition. Montreux is quarried at depths of around 80 feet. Stone at this depth is too deep for rainwater to penetrate and color with outside minerals which leaves the unadulterated stone a true white color. Montreux has a soft tumbled finish and comes in heights of 2.25", 5", and 7.75" with 10.5" heights available upon request. The 10.5" heights are typically used on larger scale projects as the size of the individual pieces of stone usually corresponds to the size of the project as a whole.

### Flats Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "  
Lengths: 4" - 16"  
Depths:  $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "  
Lengths: 3"-5" x 8"-12"  
Depths:  $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Natural Tones  
Style: Dimensional  
Finish: Tumbled

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
