

# MOOSE LAKE

## Product Information & Data Sheet

Moose Lake is a colorful blend of natural thin stone veneer showcasing the different stone faces of rocky mountain quartzite. The stone combines neutral greys with earthy browns and bright rusty oranges. The rust tones come from the high iron content within the stone; these unique rust colors can only be achieved with natural stone. The standard product falls into the fieldledge style category with roughly linear pieces and a few irregular shapes. Moose Lake can be custom cut exclusively into larger rectangles, irregular shapes, or smaller ledgerstone pieces per customer request.

Note: This product is currently on backorder. Please contact us before placing an order.

### Flats Dimensions

Heights: 2" - 10"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 10"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey Tones

Style: Fieldledge

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
