

NARRAGANSETT

Product Information & Data Sheet

Narragansett is a rugged and weathered natural thin fieldstone veneer. With rough textures and a variety of natural earthy colors this stone is a great option for an executive lake home. The stone is characterized as a castle rock style due to the large rectangular pieces of stone. This style is also referred to as square-rectangular or square-rec for short. The individual pieces can range from 4"-12" in height. Narragansett thin stone veneer is most commonly found on large scale exterior projects due to the large sizes of the individual pieces. The stones will be snapped (a natural and still rustic looking edge created by breaking the stone with a hydraulic press) on all four sides. The castle rock style is almost always installed with a mortar joint between the pieces of stone.

Flats Dimensions

Heights: 2" - 12"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Earthy Browns, Gold

Tones, Grey Tones

Style: Castle Rock

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
